13^o International Meeting

**Atrial Fibrillation
and Heart Failure:
2019**
the ugly
and the nasty

February 14-15
Royal Hotel Carlton
Bologna
Italy

MAIN TOPICS

- **AHRE or just AF as a stroke predictor**
- **Atrial cardiomyopathy: an evolving concept**
- **EKG: always a useful diagnostic tool**
- **How to predict HF and how to react on a precocious diagnosis** Pace-makers and CRTs programming may favour a HF improvement
- **AADs: a new era with different rules**
- **NOACs: new insights with clinical implications**
- **The expanding cardio-oncologic field**
- **New tools for an easy and reliable HF diagnosis**
- **New horizons for AF ablation**
